

WAL-
LOWA

FROM DIANE'S DESK

FOCUS ON.....

Wallowa Resources had the privilege of hosting three interns this summer. From them we learned the importance of youth in our organization and the wonderful ideas and excitement they have for the future of this County and our Country. We look forward to hosting other interns in the future.

We would like to focus on them and their experiences with Wallowa Resources. Youth like these are “Our Future”. It’s important for them to understand how important they are and that the qualities they possess are extremely valuable. Enjoy!!
